

Timetable

⚠️ Issues & Corrections

1. ✗ Invalid CSS selector: `selector`

```
selector {  
    background-color: light-blue;  
}
```

- **Issue:** `selector` is not a valid HTML element or class.
- **Fix:** Replace with a real selector like `td`, `.highlight`, or `tr:nth-child(even)`.

2. 🎨 Invalid color name: `light-blue`

- **Issue:** `light-blue` is not a recognized CSS color.
- **Fix:** Use `lightblue` (no hyphen) or a hex code like `#ADD8E6`.

3. 📝 Spelling errors in table headers and cells

Incorrect	Correct
Tuestday	Tuesday
wednesday	Wednesday
Thuresday	Thursday
Intervel	Interval
Libraray	Library
language	Language

It	IT
political Science	Political Science

- **Tip:** Encourage students to use consistent capitalization for subjects and days.

4. Table height is fixed

```
table {  
  height: 100px;  
}
```

- **Issue:** This may squash content or create uneven rows.
- **Fix:** Remove `height` or use `min-height` if needed.

5. Unused or commented-out code

```
<!-- <td></td>  
  <td></td>  
  <td></td>  
  <td></td> -->
```

- **Suggestion:** Clean up unused code unless it's part of a teaching point.

Suggested CSS Fix

```
table, th, td {  
  border: 1px solid;  
  border-collapse: collapse;  
}  
table {  
  width: 50%;  
  margin: auto;  
}  
caption {  
  font-size: 30px;  
  margin-bottom: 0.5rem;  
}
```

```
tr:nth-child(even) {  
    background-color: #f2f2f2;  
}
```
